

STANDARD OPERATING PROCEDURE

New Client Onboarding Checklist | Prepared by Mary Rose Anonat

DOCUMENT OWNER M. Anonat	LAST UPDATED June 2026	VERSION 1.2
-----------------------------	---------------------------	----------------

PURPOSE

This procedure outlines the standard steps for onboarding a new client engagement, ensuring nothing is missed between initial agreement and the client's first working week.

PROCEDURE

1. Send welcome email with engagement agreement and onboarding questionnaire within 24 hours of signed agreement.
2. Schedule kickoff call within 3 business days of questionnaire submission.
3. Set up shared folder structure (Google Drive or client's preferred platform) with standard subfolders: Admin, Communications, Reports, Templates.
4. Request access/credentials for required tools (email, calendar, project management, CRM) via secure password manager — never over plain email.
5. Add client's key dates, recurring meetings, and deadlines to shared calendar.
6. Confirm communication preferences (primary channel, response time expectations, escalation contact).
7. Send first weekly check-in summary at the end of week one, including completed tasks and any open questions.
8. Schedule 30-day review call to confirm engagement is on track and adjust workflow as needed.

NOTES

All client credentials are stored using a dedicated password manager and never shared via email or chat. Folder structures are adapted to match client preference where an existing system is already in place.
